

INFORMATION BROCHURE

WHAT TO EXPECT

Thank you for your interest in our successful weight loss product, we are pleased to introduce you to your last diet ever, our diet have helped thousands and thousands of people around South Africa to lose that unwanted weight. Our diet is a low calorie diet designed and approved by Doctors together with either homeopathic HCG drops or HCG Injections. Our diet consists of 3 Phases, below is an idea of what you would expect when you join our weight loss program:

DETOX PHASE

DAY 1-3

The detox phase will prepare your body for the transformation process ahead. This phase is not about losing weight although it is not uncommon to do so in large amounts as you let go of toxins & impurities. You will eat the following while using your Injections or drops:

- Eat roughly 300-400g of Fruit OR Vegetables per serving, 3-4 servings daily depending on hunger.
- 3-4 liters of water
- Unlimited amounts of plain black coffee and tea.

WEIGHTBUST (WEIGHT LOSS PHASE)

DAY 4 – 30 OR UNTIL GOAL WEIGHT IS REACHED

This is the crucial phase that you will be eating only the foods on our allowed list. You will stay on this phase until you reached your goal weight. You need to stick following guidelines while using your Injections or Drops:

3 MEALS + 2 OPTIONAL SNACKS PER DAY

- Breakfast
110g of protein + vegetables + 1 fruit
 - Snack
Half portion starch + 1 fruit
 - Meal
115g of protein + vegetables/salad
 - Snack
Half portion starch or Light CupASoup + 1 fruit
 - Meal
140g protein + vegetables/salad
- Maintenance Phase
Continue for 3-4 weeks AFTER you have reached your goal weight

IMPORTANT:

Before you start this phase, you must continue with the WeightBusters Meal Plan Phase for 3 days WITHOUT the WEIGHTBUSTERS injections.

Once you start Phase 3, we do recommend using the following two lifestyle changes going forward:
DO NOT skip this phase as this is crucial for your weight loss to be a success and not to gain the weight back or fluctuate up or down on the scale.

This phase is just as important as the fat burning phase. It is critical for resetting the hypothalamus gland, which controls your metabolism and the endocrine system of the body.

Once you start Phase 3, we do recommend using the following two lifestyle changes going forward:

1. Keto Diet
2. Intermittent Fasting Diet

THE BENEFITS

- Fast Results
- Natural, Safe, Effective and easy to use
- HCG does not affect the muscle tone and tissues
- Targets the body fat
- Converts body fat into energy

TERMS & CONDITIONS

Medical Disclaimer:

YOU SHOULD ALWAYS SPEAK WITH A HEALTHCARE PROFESSIONAL BEFORE TAKING OR USING ANY DIETARY, NUTRITIONAL, HERBAL SUPPLEMENT OR ANY OTHER PRODUCTS. WEIGHTBUSTERS WILL NOT BE LIABLE FOR ANY CONSEQUENTIAL DAMAGES THAT RESULT FROM THE USE OF, OR THE INABILITY TO USE THE PRODUCTS.

Warranty Disclaimer:

In order to achieve a good amount of weight loss, you must rigidly adhere to the diet plan as described. To all our customers, new and returning, for legalities and further reclamations we clearly inform the following:

By ordering dieting supplements from us you imply that you are of legal age, prescribed and may legally possess the items contained in the kits in your locale, that you will use the products in the manner in which they were intended for and that you will dispose of all sharps in a manner consistent with local codes in your area. HCG has not been demonstrated to be effective adjunctive therapy in the treatment of obesity.

There is no substantial evidence beyond that resulting from caloric restriction, that it causes a more attractive or 'normal' distribution of fat, or that it decreases the hunger and discomfort associated with calorie-restricted diets.
